Office Hours: 8:00 - 9:00 MWF. I am usually in my office every day for most of the day. Please feel free to stop by at any time. If you desperately need to see me and can’t find me, leave a message and I will call you as soon as possible.

Text: Microeconomics: Principles and Tools, 3rd Edition, by O’Sullivan/Sheffin. In order to access the online portion of this course you will need an access code. If you purchase the book new you will receive an access code in the package. If you purchase a used book, you will have to buy an access code online at http://students.pearsoned.com/.

Attendance: Roll will not be taken. Attendance is encouraged; indeed even expected, but attendance is at the discretion of the student. I am always available to help students outside of regular class meetings if they attend lectures.

Grades: Your grade will be determined from your performance on four scheduled quizzes and influenced by your performance on the homework quizzes. The first three scheduled quizzes count 100 points each and the comprehensive final counts 200 points. The numerical grade on the homework quizzes will not be figured in the total score that determines your grade but will influence your grade by the following:

If you have an average of 70% on the homework quizzes your grade will be determined by the following scale. A = 450 points, B = 390 points, C = 340 points, D = 290 points

If you don’t have an average of 70% on the homework quizzes your grade will be determined by the following scale. A = N/A, B = 420 points, C = 370 points, D = 320

Homework: There are short quizzes at the end of each chapter that will be taken online. They will be multiple choice and have 10 questions. Each homework quiz has been assigned 10 points. A 70% is therefore 7 points.
